Professional Summary

Senior Software Engineer with 14+ years of experience designing, developing, and deploying scalable, cloud-based web applications. Expertise in AWS cloud services, microservices architecture, RESTful API design, and modern JavaScript/TypeScript frameworks. Proven ability to lead full-stack development, optimize system performance, and deliver secure, high-availability solutions aligned with business goals. Strong background in UI/UX, system reliability, and cross-functional collaboration.

Core Skills

- **Programming Languages:** JavaScript (ES6+), TypeScript, PHP, HTML5, CSS3
- **Frameworks & Libraries:** Node.js, NestJS, React, Vue.js, Laravel
- **Cloud & DevOps**: AWS (EC2, RDS, SQS, S3, Lambda), Docker, CI/CD
- **Databases:** MySQL, NoSQL
- **Architecture & APIs:** Microservices, RESTful APIs, MVC
- **Front-End & UI/UX:** Responsive Design, Bootstrap, Bulma
- **Other:** Performance Optimization, SEO Optimization, Agile/Scrum, Team Leadership

Experience

WWE, Stamford, CT- *Senior Software Engineer*

September 2020 – January 2025

- Architected, developed, and deployed cloud-based applications using AWS, Docker, Node.js, TypeScript, and NestJS
- Designed and maintained scalable, secure RESTful APIs supporting high-traffic, production systems
- Led full-stack development across Vue.js, React, Laravel, MySQL, HTML5, and CSS3
- Collaborated with product, QA, and DevOps teams to translate business requirements into technical solutions
- Optimized application performance, reliability, and deployment pipelines

WWE, Stamford, CT- *Software Engineer (Full Stack)*

December 2018 – September 2020

- Delivered end-to-end web applications using AWS, Node.js, PHP, and modern JavaScript frameworks
- Developed reusable UI components and responsive interfaces to improve usability and accessibility
- Supported microservices-based systems and API integrations across internal platforms

PC Richard & Son, Farmingdale, NY - *Software Engineer / Data Analyst*

May 2016 – December 2018

- Designed and built internal and customer-facing web applications that improved customer retention and operational efficiency
- Developed appointment scheduling systems for Customer Service and Auto Service departments
- Implemented backend services and RESTful APIs using Node.js and PHP
- Built responsive, component-based UIs using React, HTML5, CSS3, and Bootstrap

Reboot Computer Services, Queens, NY - *Software Engineer (Full Stack)*

August 2010 – May 2016

- Maintained, enhanced, and optimized multiple client websites and web applications
- Developed full-stack solutions using Laravel, Backbone.js, Joomla, and WordPress
- Led and mentored junior developers, overseeing project delivery and code quality
- Collaborated on UI/UX design using Photoshop and Illustrator
- Increased client SEO performance by 40–50% through optimized front-end and backend solutions

Education

The American College of Greece, Athens, Greece - *Bachelor of Business Administration (BBA) — Emphasis in Computer Information Systems*
